FOUR CONDITIONS NAMED

**Wilson Gives Peace Terms
U. S. Will Accept From
Central Powers.**

AMERICA WAS FORCED INTO WAR

**Demands of America Set Forth In Address By Executive to Congress, Or
the Way of Emancipation of
World Shall Go On.**

Washington.—President Wilson, in addressing Congress in joint session, spoke of the world's demand for peace and the steps which must be taken to secure it. He said:

"Covenants must now be entered into which will render such things impossible for the future; and these covenants must be backed by the united force of all the nations that love justice and are willing to maintain it at any cost. If territorial settlements and the political relations of great populations which have not the organized power to resist are to be determined by contracts of the powerful governments which consider themselves most directly affected, as Count Von Hertling proposes, why may not economic questions also? It has come about in the altered world in which we now find ourselves that justice and the rights of peoples affect the whole field of international dealing as much as access to raw materials and fair and equal conditions of trade."

"Count Von Hertling wants the essential basis of commercial and industrial life to be safeguarded by common agreement and guarantee, but he can

not expect that to be conceded him if the other matters to be determined by the articles of peace are not handled

in the same way as items in the final accounting. He can not ask the benefit of common agreement in the one field without according it in the other.

I take it for granted that he sees that separate and selfish compacts with regard to trade and the essential mate-

rials of manufacture would afford no foundation for peace. Neither, he may

rest assured, will separate and selfish compacts with regard to provinces and peoples.

Test Is Simple.

"After all, the test of whether it is

possible for either government to go

further in this direction is this: Can

we have a general conciliation in the world?"

"First—That each part of the final

settlement must be based upon the

spiritual and material well-being of the

peoples involved, not of nation or

state, but of the world as a whole.

"Second—That peoples and prov-

inces are not to be bartered about

from sovereignty to sovereignty as if

they were chattels and pawns in a

game with the great game. How

farver do you think of the balance

of power in the world?"

U. S. Must Go On.

"A general peace erected upon such

foundations can be discussed. Until

such a peace can be secured we have

no choice but to go on. So far as we

can judge these principles that we

regard as fundamental are already

everywhere accepted as imperative

except among the spokesmen of the

military and annexationist party in

Germany. If they have anywhere else

been rejected, the objectors have not

been sufficiently numerous or influ-

ential to make their voices audible. The

tragedy of the world is that this one

party in Germany is apparently willing

and able to send millions of men to

their death to prevent what all the

world now sees to be just.

"I would not be a true spokesman of

the people of the United States if I

did not say once more that we en-

terered this war upon a small occasion

and that we can never turn back from

a course chosen upon principle. Our

resources are in part mobilized now

and we shall not pause until they are

mobilized in their entirety. Our arm-

ies are rapidly going to the fighting

front and will go more and more rap-

idly.

"Our whole strength will be put

into this war of emancipation—emancipa-

tion from the threat and disorder

which the Central Powers have created

in the world. We must join in the

struggle for the freedom of the world.

"We must not let the Central Powers

have a free hand in the world. We must

not let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

free hand in the world. We must not

let them have a free hand in the

world. We must not let them have a

We are authorized to announce
Mrs. Henry H. Deardorff, of Warren
County, a candidate for Congress
from the Third Congressional dis-
trict, subject to the action of the
Democratic primary to be held in
August, 1918.

We are authorized to announce J. W.
Harrison, candidate for Judge of the
Court of Appeals, in the Second Appel-
late District, subject to the action
of the Democratic primary, August
1918.

We are authorized to announce Wm.
E. Settle, candidate for Judge of the
Court of Appeals, in the Second Appel-
late District, subject to the action
of the Democratic primary, August
1918.

Judge Haynes has appointed
U. S. Embry, J. W. Howard
and A. Rose Mayhew as Super-
visors of the Tax List. They
will begin their duties second
Monday in March.

The Kentucky Equal Rights
Association hereby goes on
record as opposed to the passage
of any bill by the 1918 session
of the General Assembly providing
for presidential suffrage, or
for the submission to the voters
of Kentucky of a suffrage
amendment, unless the National
Association withdraws its opposition
to the State action at this time.

End of Democracy.

Senator Cummins, of Iowa, has
this to say in regard to the bill
introduced to give President
Wilson power to fix railroad
rates for eighteen months, after
the war closes:

"It is utterly impossible," he
added, "to conceive an instance
wherein a power of that kind
could be properly employed. It
is simply another evasion of
constantly increasing inclina-
tion to grasp for authority and to
seize it as seems like the end
of democracy, rather than the
beginning of greater freedom."

You will remember Wilson
dwelt long and loud about a new
freedom. He certainly did not
have in mind this cruel war
that is going on and at the same
time allowing his Democrat
friends to say he was going to
keep us out of war.

One rat will eat four bushels
of grain a year. It costs \$2 or
\$3 a year to feed a rat on your
place. Exchange.

Get rid of Mr. Rat if you
have to pay on his tail.

Party Wisdom.

Thomas W. Lamont, of J. P.
Morgan & Company, says:
"President Wilson is looked up
on as having displayed great wis-
dom in choosing the time and
method of coming into the strug-
gle." No doubt of it! The time
was to be any time after the
election of 1916, provided the
"he kept us out of war" virus
spread successfully. The man
was in any manner which would
be at least offense to voters
of foreign extraction in the
United States. Witness the pre-
pared treatment of resident
Austrians, Bulgarians, etc., and
the declaration that "we have no
quarrel with the German people."
"Great wisdom" was
party wisdom.

In time of war the President
of the United States is com-
mander-in-chief of the army and
navy. The members of his cab-
inet are responsible to him per-
sonally, not to Congress. None
of them may be removed without
his consent except by impeach-
ment.

Now is the time to advertise
farmer's wives having the

FROM BUTLER BOY IN FRANCE.

Right Spirit Shown by This American Boy's Letter.

With American Expeditionary Forces in France—Mr. W. M. Cehron and family. I received

your letters today, and sure was

glad to get them as I had not

heard from you for quite a while

only that registered letter. I

was surprised to hear of it being

so awful cold and so much snow.

We have had some cold weather

and snow, but nothing to com-

pare with that. All of the snow

is gone now, and we are having

some very warm weather now.

But it is like it is at home, the

WASH THE KIDNEYS!

All the blood in the body passes thru the kidneys every few minutes. This is why the kidneys play such an important role in health or disease. By some mysterious process the kidney selects what it wants to keep and what it wants to take out. If the kidneys are not good workmen and become congested—poisons accumulate and we suffer from headache, headache, lumbago, rheumatism or gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed at night. So it is that Dr. Pierce, of the world's hotel "The Sun," in Boston, writes: "Boil a quart of 'Wash the Kidneys' by drinking six to eight glasses of water between meals and then if you want to take a harmless medicine that will clear the channels and cure the annoying symptoms, go to your druggist and get Amuri (double strength), for COX 'The Americo,' which is so many times more powerful than any other drug to cure acid poisons and bathe the kidneys and channels in a soothing liquid. If you desire, write for free medical advice and send sample of water for free examination." Experience has taught Doctor Pierce that "Amuri" is a most powerful agent in dissolving uric acid, as hot water melts sugar. Send Dr. Pierce his free trial package.

HAD KEEN EYE TO BUSINESS

Good Reason Why Young Man Did Not Deserve His Gift From His Father-in-Law.

John D. Rockefeller, Jr., at the Y.M.C.A. camp in New Jersey, where he had been doing voluntary war work, told a story about a mean young man.

"This mean young man," he said,

was the son of wealthy parents, and the young couple began their wedded life in a house belonging to the bride's father.

"Not long ago, while we were discussing market conditions together, I asked the young man if it was true that his father-in-law had made him a present of the house he lived in."

"It's a very generous thing, if so," I added.

"Well, it ain't so," said the young man. "That is, it ain't exactly so. He offered me the house, but I wouldn't accept it."

"Why not?" said I.

"Be winking sciony."

"The houses is sure to be willed to me when my father-in-law dies," he said, "and meanwhile I'm living in it rent-free, while the old man pays the tax."
