VOLUME XXVI.

MORGANTOWN, KENTUCKY THURSDAY, APRIL 4, 1912.

NUMBER 13.

## NEW FARM TRAIN INTERESTS MANY

### SPECIAL SENT OUT BY THE AGRICULTURAL DEPARTMENT AWAKES ENTHUSIASM.

## TIMELY TALKS TO THE GIRLS

### That Part of the Lectures Devoted to the Growing Ladies Was Enthusiastically Received—Professor Gave a Demonstration on Milking Cows.

Mayville.—With most of its passengers asleep in the Pullman cars, the agricultural train of the State university and the Kentucky department of agriculture, which is on a tour of 72 counties of the state, visited Mayville. The trip was along the south bank of the Ohio river from Ashland, a distance of 82 miles. Much interest was shown at the three places where formal meetings were held and the attendance was good in spite of the fact that high water made many country roads impassable. The weather continued fine and the railroad and commutary service has been perfect.

A two-hour meeting was held here, after which the special continued down the Ohio valley to Newport, stopping at Augusta and California. There was no meeting or demonstration at Newport. The Louisville & Nashville railroad took charge of the train after leaving here, and it will travel over that system until April 5, when it was transferred to the Illinois Central at Henderson.

## Timely Talks to Girls.

Greenup, at the mouth of Little Sandy river, was visited several hundred persons greeted the special on its arrival and remained at the station until the train departed two hours later. They listened attentively to the lecturers, inspected the exhibits with interest, and about home well-learned with literature distributed on the cars, and fruit tree stocks and cuttings presented by Prof. G. D. Smith. Following Greenup, after he had explained the legitimate way to make a good crop of corn, he gave a demonstration on tree spraying.

After the train had been dined nearly 100 high school students, in charge of Miss Anna Davidson, the principal, arrived on the scene. After lunch, she led the girls into the waiting room of the railroad station and began lecturing on what the department of the State university has to offer in the way of extension work. The girls became so crowded and she relinquished her audience to the rear of the train, mounted the vestibule of the last car and finished her speech in presidential style. In the meantime, Prof. George Roberts had climbed to the top of a pile of crows and was explaining to the small boys the germinal test of seed corn. E. C. Martin spoke on silk. Professor Hooper gave a demonstration of milk for cows and Miss Neale S. Kuyler addressed a car full of women on household economics.

### Eggs Too Precious to Eat.

The cattle car is supplying the dining car with milk, one cow producing nearly five gallons of milk daily. About a dozen eggs a day are laid by hens in the poultry division, but they are too valuable to be eaten.

There was no crowd at South Portsmouth. There is little more there than the railroad station and the residents of the Ohio city on the north side did not cross the swollen river to see Kentucky's farm train. By shortening the stop at South Portsmouth, Vanceburg was reached before dark. The cars were inspected by officers immediately after the train's arrival, but the formal meeting was held in the Lewis county courthouse. Beginning at 7 o'clock in the evening there were addresses by a commissioner Newman and Judge Barke and lectures by Miss Chubb, E. C. Martin of Indiana, and Professor Roberts.

## EXPLOSION ON TOWBOAT.

Corning.—With a roar that was heard a mile from the cylinder of the port engine of the towboat Boaz blew out, with the result that one man was scalded. The boat was destined for Louisville with a load of 12 boats and barge of coal. From the river bank it seemed that the Boaz was trying to make a landing in the Mill creek harbor, as she was turning slowly in the effort to make her way back and across to the bank when the cylinder head blew out.

## DELOPERS RETURN HOME.

Evansville.—The elopement of Andrew Knight, 20, and Verdie Robinson, 19, of Rochester, Ky., who in defiance of the objection of the girl's family, came by river, to Evansville to be married, and were arrested on their arrival, ended by their return to company with the girl's father, A. B. Robinson of Rochester. A charge of kidnapping had been placed against Knight and he volunteered to go back to his father, and the volunteers to take extradition and return to Kentucky.

## DEMAND SUGAR IN COFFEE.

### Consumers Say That Beverage Is Flat and Unpalatable Without It.

Lexington.—The bill of fare at the county jail is not up to the standard desired by nine of the negro prisoners, and they sent a letter to County Judge J. Percy Scott, complaining of the food given them. Judge Scott immediately ordered an investigation. The complaints, with one voice, declared that the coffee was not strong enough and on some days it did not have sugar in it. They complained generally that the food was not satisfactory in quality or quantity. On the other hand one of the prisoners in the same cage said that he did not like his coffee too strong and preferred no sugar in it, and still another prisoner, who declared that he had served 13 sentences in six different jails, said that the Lexington jail's feed was the best he had received in any of the six.

Paducah.—W. C. Bellenger, who was questioned by the committee of magistrates who made the investigation, implied that he furnished good and simple food twice a day, at 8 and 2 o'clock, and said that the only complaint that had been made to him by the prisoners was when one day, on account of repairs to the jail range, GIRL HURT IN BALLOON FALL.

## MISS MARY ROGERS SERIOUSLY INJURED IN FLIGHT ACCIDENT.

Louisville.—Traced about by a high wind, a balloon in which Miss Mary Rogers Lyons, daughter of Mrs. W. L. Lyons of Louisville, with a party of friends, had been sighted, in Belgium, was dashed to the ground with such force that Miss Lyons suffered fractures of two of the bones in one of her ankles. The accident occurred at The Hague, and news of it reached Louisville recently. She will leave Louisville for Brussels, Belgium, where the injured young woman is confined to the home of a friend.

## BOY FATALLY WOUNDS OFFICER.

Taylorville.—The case of the commonwealth against John S. Truax, charged with the murder of "Colorado" Grant, is attracting great attention. It is reported that a jury cannot be secured in this county and will be summoned from neighboring counties. Last August "Colorado" Grant, proprietor of a dog and pony show, was giving a series of shows here. On the evening of August 4, Truax, with his family, was in the audience. It is alleged he was reprehended by Grant for boisterous behavior and was finally ordered out of the tent. At the close of the performance Truax entered the tent and going behind the scenes became engaged in a quarrel with Grant. The two men clinched and the killing followed. The widow has engaged Judge Gilbert and Attorney George Pickett to assist in the prosecution.

## KEEP CLOSE WATCH ON LEVEE.

Hickman.—With 8,000 bags of sand ready on the levee and a patrol watching for leaks, the feeling of uneasiness here caused by the discovery of a big leak about two miles below the town is somewhat allayed. The surface of the river is seven feet above the level of the lower back of the levee and the lower part of Hickman and it has been rising at the rate of a foot a day, but it is believed that the crest has passed.

Louisia.—Eck Vaughn was instantly killed at Heller, Pike county, and Aron Williamson was badly injured that by cannot recover. One arm and one leg were cut off, and the other two limbs crushed, and there are internal injuries. The young man lived at Richardson, this county, and was employed as a brickman by the C. & O. railroad. Loaded coal cars got loose on a heavy grade and ran into the train, catching the two men.

Governor.—Dam 46, which will be built at or near this city, will mean a big increase in business and population. A meeting was held here and equipped and about 500 men will be employed on the work. Besides the lumber it will take somewhere, more 1,200,000 tons of steel, 8,000 barrels of cement and 100 tons of concrete. There is much enthusiasm being shown here by the citizens, who are very anxious to secure the dam.

Paducah.—With the Ohio river within seven-tenths of a foot of the danger line—43 feet—river men generally concede that there would be more water than expected yesterday, when 43 feet was the prediction of the most conservative. The gauge reads 42.2 feet and risk is.

Paducah.—The case against Frank L. Leasor in the circuit court at Paris, Tenn., where he is charged with obtaining money by false pretenses, was continued until the July term. Leasor, who lives here, was arrested recently on the charge of obtaining money by false pretenses while he was agent for an insurance company.

Louisville.—Secretary J. A. Crowlins announced that the Simpson county fair will be held August 23-24 inclusive.

## FROM OLD KENTUCKY

Mayville.—Elizab. Hughes, 17, has been held to the grand jury on the charge of cutting Joseph Armbruster in February.

Hodgenville.—Lewis Henry Mather, young son of O. M. Mather, fell from a pile of tiling, fracturing an arm and dislocating the elbow.

Atarville.—Miss Menice Lyne, who declared for a London with her singing, is a cousin of Selden Lyne of this county.

Winchester.—James Gartland, Jr., of this city fell under a car at Richmond and his leg was so badly mangled that amputation was necessary.

Bowling Green.—The local organization of women suffragettes is arranging for a lecture which will be delivered shortly in this city by Miss Laura Clay.

Mayfield.—Reports of the deplorable condition of the county roads reach the city. There are many mud holes so deep that it is next to impossible for travelers to cross.

Laanester.—Taylor-Ramey sold 20 acres of what is known as the Simpson Anderson farm on the West Lancaster suburbs to W. E. Moss for \$127.50 per acre.

Winchester.—A well-attended educational meeting was held here. Addresses were made by Prof. J. J. Kirk, formerly president of Kentucky Wesleyan college; Prof. F. J. Noe of Kentucky university and F. C. Burton, state inspector of schools.

Hickman.—A number of well-known men who run small stores, principally in the lower end of the county below here, have been cited to appear here and answer to the charge of keeping their stores open on Sundays.

Paducah.—The graded school board at Cadiz has let the contract for a new building to cost \$17,000. It will be modern in every respect. The successful contractors were Alexander Bros. and Thompson Powell, both of Cadiz.

Barbourville.—A good fruit crop is expected in this section. Growers report apple and peach crops are better than usual, and believe the buckwheat spring will cause a record crop. No damage is reported from recent frosts.

Lexington.—J. L. Montgomery and several members of the city council of Georgetown are here inspecting Lexington's new asphalt streets. The Georgetown city council at a recent meeting included asphalt in its specifications for new streets.

Whiteburg.—The case of the commonwealth against G. Wash Morgan in the Perry circuit court at Hazard, charged with the murder of Deputy United States Marshal F. M. Blair and the serious wounding of Deputy Sheriff J. D. Blair on the Letcher-Perry border three months ago, was called and continued until the July term of court.

Saylorsville.—In a fight here, Charles May, 17, and William P. Day, 19, were shot and killed by Harry Rayburn, 19, who was himself fatally stabbed. The three young men were cousins. The fight originated over a trivial matter and friends attempted to prevent it, but finding their efforts useless stood by and let the fatal affair proceed.

Bowling Green.—Robert Martin, the son of S. H. Martin of the Three Forks neighborhood, was brought to this city to undergo the Pasteur treatment at the bacteriological laboratory of the state board of health. The young man was bitten by a dog near his home last week. Several other persons from different parts of the state are here receiving the same treatment.

Bowling Green.—The canning factory, which has been shut down for several years, will resume operations in June. Arrangements have been made with the Strawberry association to use its surplus crop. Contracts have been made for several hundred acres of tomatoes.

Richmond.—James Gartland of Winchester, while attempting to board a freight train here fell under the wheels. One leg was so badly injured that amputation was found to be necessary.

Perryville.—The stockholders of the Perryville Fair association have elected officers as follows: Joseph McDowell, Jr., president; H. C. Williams, secretary, and C. B. Minor, treasurer. The fair will be held August 21-22.

Hickman.—With the opening of spring and good weather, a building boom will be on in Hickman. Builders are being signed up by local contractors in a measure under the plan known as the common interest plan, having already contracted to do much work as they can handle for the year. Building lots are in demand.

Olney.—A large feed barn, belonging to P. E. Tandy, situated on Broadway, was destroyed by fire. The barn contained, besides drummers, wagons and a lot of feed.

## GARNING DELEGATES FOR TAFT

MR. TAFT'S campaign for renomination is being conducted by Congressmen William B. Kinley and Albert T. Vernon, a well-known local correspondent, as chief of publicity.

## 82 DEATHS IN MINE IN DECISIVE BATTLE

### JED, W. VA. HAPT SCENE OF GAS EXPLOSION AND INSTANT DEATH.

### ELEVEN ESCAPE THE BLAST

Thirty-three bodies recovered—Rescue CA. Hunted to Town—Five Men Killed When Sawmill Boiler Explodes.

Bluenoid, W. Va.—Eighty-two men were killed by a gas explosion in the Jed-Good mine, a company's mine in Jed, W. Va., 12 miles from here. One man escaped alive, and one of these died an hour after being brought to the surface.

Thirty-three bodies have been located and the others will have them out shortly.

When the explosion took place probably only the men working at the foot of the shaft had a chance for their lives. The gas, which filled the mine, was ignited by a lighted candle.

Though some of the bodies of the men were found, they continued to operate, with the fortunate result that enough gas was present to admit searching parties immediately.

Less than an hour after the news of the explosion had been communicated to the place relief measures were being taken. Oxygen and other supplies were furnished from the United States Coal and Coke company, a United States corporation mine near by, a government mine rescue car en route to Huntington, W. Va., was turned back on telegraphic orders from Washington, and another car was started from Pittsburgh. The first car reached here shortly after noon.

The experts immediately conceded that all in the mine were dead. Graded rescue parties and began the exploration of the mine. The gas was cleared out and they began searches of the lower levels they immediately began to level up immediately. Other mines near by sent experienced foremen to lead hundreds of volunteer rescuers who flocked to the scene as the news spread about the countryside.

## PHILIP HICHBORN A SUICIDE

### Dependency Over Wife's Elopement Supposed to Be Cause of Washington Millionaire's Act.

Washington.—Philip Hicbhorn, a millionaire in his own right and a member of one of the oldest and wealthiest families in Washington, was found dead in his bathroom, having shot himself with a 32-caliber revolver. Dependency caused by his wife running off with Horace Wylie, a prominent clubman, is presumed to have been the cause of the suicide.

Mrs. Hicbhorn is a beautiful woman, about thirty-five years old. Both Hicbhorn and Wylie were over forty years old. The eloping couple are supposed to be in Europe.

## LOSES NATHAN ALLEN SUIT

### Complaint of Mrs. Helen Fuld Dwell Against Wisconsin Leather Manufacturer Dismissed.

New York.—Supreme Court Justice Gerard dismissed a suit for damages brought by Mrs. Helen Fuld Dwell, also known as Mrs. Jenkins, against Nathan Allen, the Wisconsin leather manufacturer, and the detective firm of Mooney & Bayard arising out of the taking by a flock of sophisticated jewelers and other valuable which were in a safe deposit box and which Mrs. Jenkins said were hers.

Pass Arizona Recall Bill, Phoenix, Ariz.—The bill authorizing the judiciary recall is to be sent to the people at the next election. It has passed the senate and is now in the hands of the senate committee on constitutional amendments.

Operate on Senator Taylor, Washington.—Senator Taylor of Tennessee underwent a successful operation for his recovery.

## OF NO REAL BENEFIT

### TAKING TAX OFF SUGAR WILL NOT CHEAPEN THE PRODUCT.

### The Foreign Grower and the Middle Man Will Simply Add That Much to Their Profits—Consumers Will Pay the Same.

The house Democrats have decided to support a bill putting imported sugar on the free list and to make good the loss of \$52,000,000 a year revenue by imposing a 1 percent tax on all incomes in excess of \$5,000 a year.

The income tax is not called by that name. The house Democrats seek to evade the Supreme court's ruling with respect to the meaning of the constitutional provision as to "direct taxes" by calling it an "excise tax" and appealing to the present corporation tax as a precedent.

There is, of course, theoretically no objection to an income tax with there is much to be said in its favor. It simply requires wealth to contribute to the support of government in proportion to the protection it may and does require from government.

In the practical situation produced by the demand for reduction of tariff taxation it is necessary for the government to turn to other sources of revenue to make good the loss. So much money must be taken from the people somehow or other to meet the expenses of government. If the constitutional objection can be met, an income tax is probably as good a means as any.

As regards the free sugar proposal, there are some rather peculiar matters to be considered.

Only a few years ago we gave to Cuba a preferential position in our sugar market, with plous professions of a desire to help her people to prosper. That benefit the Democratic party proposes to take away.

Less than two years ago we gave the Philippines practically free access to our sugar market, with more plous professions of benevolence. The Democratic party now puts the Philippines under our flag, on a level with the Japanese and other foreign sugar growers toward whom we have no national duties. This is bad faith.

Of course the sugar grower has no objection to the free sugar proposal, but he has a strong objection to the corporation tax on the government. It is popular to kick the sugar tax.

And it is figured that it will be a "winning argument" for the Democratic party on the stump to be able to assert that it at least tried to "take a tax off the poor man's breakfast table" and to "lower the high cost of living."

Already promises are made that when this bill becomes a law, sugar will be a cent and a half a pound cheaper and that "the people will be saved \$107,000,000 a year" or about a dollar a head.

It is a perfectly safe prediction that putting sugar on the free list will have no such effect on the price of sugar—that the cost of sugar to consumers will not be materially reduced by this measure, but by means of it the average American family will be enabled to put \$5 a year more into the savings bank.

We may understand this by just remembering what did not happen when the import tax was taken off coffee years ago, and when the import tax imposed on tea during the Spanish war was removed. In neither case did the price to consumers come down and stay down.

The foreign growers and the middlemen simply divided the tax and put it in their own pockets. And the same thing will happen with respect to the import tax on sugar.

The only way in which the price of sugar can be permanently reduced is by producing it more cheaply on our own territory. That cannot be done by taking away the advantage given by the tariff to our home and colonial sugar growers.

Under the Democratic proposal we will pay about the same prices for sugar as we do now. Some will refuse to believe this. Let them wait and see.

Poor Scheme of "Economy."

The Democratic scheme for reducing army expenses comprehends the abolishing of five regiments of cavalry, apparently by the discharge of enlisted men and not by their distribution to other regiments or other branches of the service. That we have an undue proportion of cavalry has long been the conviction of many infantry officers. On the other hand, the argument has been advanced that as the modern army, to be effective, must be extremely mobile, our departure from the common scheme of proportion of cavalry to infantry is perfectly in date. The political effect of reducing the army is not likely to be to the advantage of the Democrats.

Illinois Jurist is Slain.

Greenville, Miss.—Judge Trogon of Paris, Ill., was instantly killed by a revolver shot fired by Sumner Rhoades, also of Paris, but who had been on the Trogon plantation several months.

Rochester Tailors' May Strike.

Rochester, N. Y.—Max J. Sulbiski, a national organizer of the United Journeymen Tailors of America, has presented a demand for recognition of union with the tailors, and threatened a strike.

Banana Famine Seems Likely.

Puerto Cortes, Honduras.—The long drought along the north coast of Honduras has ruined the banana crop almost to a trip. Planters are disheartened.

## POOR PLACE TO ECONOMIZE

### Democrats Will Gain Little by Their Perambulating Dealing with Naval Affairs.

What a howl there would be if we expected this country should be thrown into a war with one of the great powers and our navy should be found inadequate to meet the situation! When the people of the country protested against the lack of preparedness that permitted the first few reverses, what answer could congress make to the charge of negligence?

It is all very well to say that there is no danger of a war with one of the big powers. Were there such a danger at present, the country might well pause before adopting a big naval program that might hasten the crisis if the United States should prepare itself now, however, its action would not be open to misconception or the cause of fears abroad.

The assertion of Secretary Meyer, before the house naval affairs committee that Japan in 1916 will have wrested the position of third naval power from the United States and that this country will have difficulty in maintaining itself in fourth place unless two battleships are authorized each year, amounting five pairs to those who are trying to effect economies at the expense of the navy.

The suggestion that a country as rich as the United States should voluntarily take fourth place in the ranking of the world powers is a reflection on the progressiveness of those who have the power to make the policy of the nation. If such economy is designed as an appeal for votes at the coming election, it will not work. The people want an economical government, but they do not want to endanger either the prestige or the safety of the country.

Congress ought to realize that the people of this nation are patriotic as well as progressive. The tariff over which the Democrats are showing so much concern, could not rouse the people to the pitch where they would be willing to lay down their lives either for or against it. For the protection of the nation, however, it is likely that the people will support the elimination of two battleships, which will force this nation into fourth place and probably still lower. In a test between economy and patriotism the latter will win every time, and the Democrats should keep this in mind when the next hour the navy bill is voted on the floor of the house—Washington Post.

The Underwood Proposal.

In the first place, free sugar will greatly impair, if it does not destroy, both the cane sugar and the beet sugar industries in this country. They have not grown greatly even with the aid of protection. Without it they will be certain to suffer a dispatch from Key West estimates a loss to the cane sugar interests of Louisiana, at \$10,000,000—probably a conservative estimate.

In the second place, if an excise tax can be laid and made to stick in this case, it can be applied in other cases and emergencies. Why proceed further with the effort to amend the Constitution in favor of an income tax? Has not the way been found for whipping the gentleman with horses and order to make the breakfast table epuree free, or put other articles on the free list. It will only be necessary to increase the excise tax to cover what loss of revenue is to follow. The battle will be won by the establishment of the excise tax. Raising or lowering the rate can be arranged with no great trouble—Washington Star.

Working for a Good Cause.

Secretary Wickham asked congress for an appropriation to continue the campaign against white slavery. Congress was not disposed to respond. Democratic congress yields reluctantly if at all to demands for money from officers of a Republican administration. But there are good citizens determined that white slavery shall be stamped out and extremely disregard of considerations of party politics. A number of civic organizations, including the National Order of Royal Arch, and the National Society for the Prevention of Crime, are sending representatives to Washington to urge a liberal response by congress to the appeal from the department of justice for money to prosecute its good work on behalf of wronged and defenseless women.

Postoffice Savings Banks.

Postmaster General Hitchcock tells the country that the postoffice savings banks already established in nearly all of the 4,000 postoffices are proving themselves successful. He is so optimistic of their usefulness and satisfaction that he is going ahead with plans for opening such banks for savings in about 40,000 postoffices posthaste, which do a money order business.

Two Angles of View.

The Democratic proposal, which received the unanimous assent of the house, for the abolition of the free list, is a piece of campaign literature. As a piece of campaign literature, it may, perhaps, have its drawing power, which in exactly what was introduced for as proposed legislation it is certain to meet with check-along the line—Philadelphia Ledger.

HIGH SCHOOL

Goes to See the Bard of Avon's Plays.

A classical atmosphere is pervading our city. A love for the classical is showing itself among our people, even to the extent that a party of Morgantown folk left the embrace of Morpheus in the wee small hours of the morning on Friday last, and sat waiting while the Steamer Evansville plowed against the current of the River Green for four hours before it came to port at the capital of the county of Butler, in order that it might carry them to Bowling Green to witness the performance of two of the world's greatest dramas—namely, "The Merchant of Venice" and "Hamlet." The crowd wishes to say through the columns of The Republican that they feel amply repaid for the sleep lost. Some of the party had witnessed the tragedy of Hamlet by such masters as Robert Mantel and Richard Mansfield and they unhesitatingly say that the interpretation of the role of the Prince of Denmark by Frank McEntee compares very favorably with the master Shakespearean scholars. "Hamlet" is a gem of literature which stands out like Saul of Tarsus head and shoulders above all other plays. It stirs the sympathy of the human heart as no other play does. It verifies the statement that a guilty conscience needs no accuser. It makes us realize the truth of Hamlet's lines when he says: "There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy."

The following people composed the party: Misses Irene Howard, Bell Walker, Grace Dabbs, Callie Morehead, Pearl Fisher, Dixie Belle Helm, Mae Helm, Miriam Gillen, Beulah Kuykendall, and Mrs. Willie Lee; Messrs. Frank Walker, J. H. Payne, D. Stone, Geo. Scott, Clyde Guffy, Earnest House, Eldred Daugherty, Preston Cherry, Wendell Annis, Oval Moats, C. E. Washin, E. E. McClung, and Elvie Renfrow.

Nothing of special moment happened except that Bell Walker, Earnest House and Clyde Guffy were late at the show. Whatin established the theatrical sample system, and McClung was left on the return trip.

Taft

Has Half of His Majority Safe.

Will Be an Easy Winner Over Teddy.

BUTLER FOR PRESIDENT

Washington, March 29.—When all of the returns were in Thursday night from Thursday's conventions, President Taft had secured more than one-half of the majority that is necessary to nominate a Republican candidate for President at Chicago. There will be 1,075 delegates in the Chicago convention. A majority necessary to effect a nomination is 539; one-half of 539 is 269 1/2. President Taft has 274 on his string of delegates or 4 1/2 more than one-half of a nominating majority. The total score, including the delegates chosen Thursday, is as follows: Taft 274, Roosevelt 30, Cummins 2, LaFollette 10.

President Taft secured 16 more instructed delegates Thursday. Ten of these were given to him by the Mississippi State convention, 2 by the Second Indiana district, 2 by the Tenth Indiana district, and 2 by the Seventh South Carolina district. Col. Roosevelt secured six delegates Thursday, two in each of the Sixth, Eighth and Ninth Indiana districts. The announcement was made Thursday that no speakers will be sent out to follow Col. Roosevelt on his present tour or on any subsequent tour he may make. The quotation of the policy to be pursued came up in connection with the proposed trip of Col. Roosevelt into Kentucky next week. Two or three districts in Kentucky have been in doubt and the Taft managers learn that there is a plan on foot to have Col. Roosevelt go into these districts on April 13.

The question arose as to whether some member of the President's cabinet or some other distinguished Republican speaker should be sent into these Kentucky districts following the visit of the Colonel. Several telegrams were sent to prominent Republican Kentuckians asking them for suggestions. They answered in effect this: "Do not send anyone to trail Col. Roosevelt; he will do the President more good than harm if he comes into the State."

This advice was regarded as sound, and so the decision not to send out Taft men to reply to Col. Roosevelt was definitely reached.

Will Be Warm

The Butler county convention next Saturday will be warm. The Roosevelt men are making a great deal of noise, while the Taft men are effectively working. The county will instruct for Taft and also for Mr. R. E. Keown for delegate to the National convention. No man in the county has more friends than Rollie Keown, he is clean, honest and vigilant and the kind of man to represent the party. Butler county Republicans should not fail to support Mr. Keown. Stand by a home man.

PERSONAL

Movements of people in the Social and Business World. Judge W. S. Holmes and family have moved to the residence of Mrs. E. E. Land and will reside here in the future. Judge Holmes has engaged in the practice of law. The Republican joins their new friends in extending them a hearty welcome. Mr. and Mrs. Walter Thomas are visiting relatives in Idabel, Okla. Prof. Payne has received a letter from Archie French of Jackson, Miss., asking for a high school degree. It seems that our school is widely known.

Miss Ferold Tyler trained the young speakers who took part in the W. E. F. U. contest at the union church Monday evening. Each speaker showed perfect training. Miss Tyler is an artist and the people of this community should be proud of her. Mr. J. P. Pendley of Mining City, was in town first of the week on business. Miss Mona Braye of Provo is the guest of Mrs. Kate McKenney. Spot McKenney of Cranwell is in town this week.

The following from the daily Courier-Journal will be of interest to Butler county people: The Rev. W. W. Taylor, of the Baptist Theological Seminary, Louisville, has accepted a call to the pastorate of the Burton Memorial Baptist church on Brakes Creek, near his city. This church was newly built and was named for the parents of William Burton of Burton, La., formerly of this county, who helped liberally in defraying the cost of construction. The Rev. Taylor is pastor also of the White Stone Quarry and Providence Knob Baptist churches in this county. He will preach in his new church on Monday and fourth Sundays.

Little Miss... was the winner of the Monday evening "A Threatening Horizon" in the school contest.

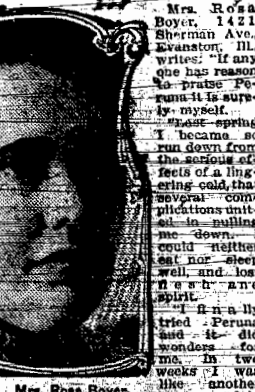

W. F. Pook of Rochester, and A. J. Bradley of South Hill, were in town Wednesday.

James Terry and John Lee, of Quality, were in town first of the week.

LOST APPETITE AND HOPE

Neglected Cold Caused Complication, Promptly Restored by PERUNA.

Mrs. Rosa Boyer, 1421 Sherman Ave., Evanston, Ill., writes: "If any one has reason to praise Peruna it is surely myself. I became so run down from the serious effects of a lingering cold, that several complications in my system could neither eat nor sleep, and I was in a very bad way. I tried Peruna and in a few days I was like another person, and in a month I felt better than I ever had before. I thank Peruna for new life and strength. I send you two pictures, so you can see what Peruna has done for me."

Farmers' Telephones

A dollar a month does not go far enough after it gets into the telephone company's treasury to satisfy the manager who has to pay the upkeep and operating expenses on a big rural line system, and keep a little small change to hand over to stockholders once in six months. He has to cut too many corners, and run too many chances of getting caught short of a bank balance by a sheet storm, or a law suit. Twelve dollars a year is too low for farmers' line service on the average system, with the quality and cost improved as it has been in the last few years. It is time to start after this rate. The farmers can afford to pay more—why should not they be induced to recognize value received? Of course we know what the farmers do when it is proposed to raise the telephone rate. But can this go on forever? What is the best way to get this thing into a better shape? Some have done it already. Telephone (The Independent Telephone Journal.)

Couldn't Walk

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE The CARDUI Woman's Tonic. We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women. Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it. # CRITICAL TIME OF WOMAN'S LIFE

### From 40 to 50 Years of Age. How It May Be Passed in Safety.

Odd. Va.—"I am enjoying better health than I have for 20 years, and I believe I can safely say now that I am a well woman. I was reared on a farm and had all kinds of heavy work to do which caused the troubles that came on me later. For five years during the change of life I was not able to lift a pail of water. I had hemorrhages which would last for weeks and I was not able to sleep. I suffered a great deal with my back and was so nervous I could scarcely sleep at night, and I did not do any housework for three years.

"Now I can do as much work as any woman of my age in the county, thanks to the benefit I have received from Lydia E. Pinkham's Vegetable Compound. I recommend your remedies to all suffering women."—Mrs. MARTHA L. HOLLOWAY, Odd, Va.

No other medicine for women's life has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for women's ills.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., 233 First Street, Lowell, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Possibly Willing to Assist at It. At a little party John A. McConomy consented to do a little impromptu chalk talking with the president of the committee.

"I think it would be a darned good thing," replied the Democrat.

Financial Cripples. They were taking the visitor from up-state around Manhattan, showing him the sights. The big automobile rolled past many wonderful buildings, all of which the host pointed out with some feelings of civic pride. At last they chanced to pass by the Municipal League house.

"Oh, that's one of New York's homes for cripples," was the reply.

"What kind of cripples?" was asked.

"Financial," was the reply, as the car sped on. New York Herald.

NO WORDS WASTED. A Swift Transformation. Briefly described.

About food, the following brief but emphatic letter from a Georgia woman goes straight to the point and is convincing.

"My frequent attacks of indigestion and palpitation of the heart culminated in a sudden and desperate illness from which I almost despaired of mind and body. The doctor advised me to live on cereals, but none of them agreed with me until I tried Grape-Nuts food and Postum.

The more I used of them the more I felt convinced that they were just what I needed, and in a short time they made a different woman of me. My stomach and heart troubles disappeared as if by magic, and my mind was restored and is as clear as it ever was.

"I gained flesh and strength so rapidly that my friends were astonished. Postum and Grape-Nuts have benefited me so greatly that I am glad to bear this testimony." Name given by Postum Co., Battle Creek, Mich.

# LORIMER WINS OUT

### SENATE COMMITTEE, BY 5 TO 3 VOTE, GIVES SEAT TO SENATOR.

### HINES IS FREED FROM BLAME

### Majority Holds That Case Has Already Been Decided—Lea, Kern and Kenyon Oppose Ruling—Fight Expected on Floor.

Washington.—The special investigating committee has upheld the right of Senator Lorimer of Illinois to his seat in the United States senate. The committee, by a vote of 5 to 3, has decided that the senate's vote sustaining Mr. Lorimer in the late congress, on substantially the same charges, barred any further proceedings against him.

The committee's action was sweeping. It not only adopted the "Tria Judicata" resolution prepared by Senator Jones of Washington, but other resolutions favoring the Lorimer contention.

The Jones resolution declared that the pending case had already been covered by the previous trial of Lorimer in the senate, and that to again place the Illinois senator on trial would not be in accord with the principle of "Tria Judicata."

Another resolution adopted exonerated Edward Hines, the Chicago lumberman of any wrongdoing.

By a vote of 5 to 3 the committee adopted a resolution declaring that if there was any corrupt dealing in connection with Lorimer's election to the senate, Lorimer had no knowledge of it.

The committee also took action declaring that there was no conclusive evidence of a legislative "jack-pot."

On the resolution declaring that Lorimer had no knowledge of any corrupt dealings, Senators Kenyon, Kern and Lea, who opposed Lorimer, refrained from voting.

The committee vote on the Jones resolution follows:

For Lorimer—Dillingham, Gamble, Jones, Johnston and Fletcher.

Against Lorimer—Kern, Kenyon and Lea.

It is practically certain that a minority report also will be made from the committee and a notable debate is expected when the case reaches the floor of the senate.

It is expected that the case will be brought up in the senate next week.

Twelve propositions were voted on before the committee adjourned. The opposition to Lorimer offered a resolution declaring that money was paid out at St. Louis to influence the election. On this only three votes were cast in the affirmative, one was cast in the negative, and four did not vote.

The resolution being met, Senators Kern, Kenyon and Lea offered a resolution that there was a high probability some members of the legislature at Springfield. The majority of the committee, however, declined to vote on this.

A resolution declaring in general terms that no evidence had been adduced showing corruption in connection with the Lorimer election was carried, 5 to 3.

Washington.—Senator Stephenson of Wisconsin was declared elected to his seat by the vote of 40 to 34. This ends a long fight in which there were 100 investigations, revocations or suspensions, and a record of \$107,000 spent by the senator in the primary campaign of 1908 and charges of the illegal use of money.

Senator Robert M. La Follette left a sick bed to cast his vote against his colleague.

The following senators did not vote: Martin and Swanson of Virginia; Taylor of Tennessee, and Tillman of South Carolina.

Not a single progressive Republican senator voted for Mr. Stephenson. On the other hand, three regular Republicans voted against him—Jones of Washington and Smith and Townsend of Michigan.

Massachusetts Man Refused License to Wed Chicago Girl—His Parents Say, Head is Injured.

Boston.—A romantic exemplification of the "breadth marriage" theory started by Dean Sumner of Chicago and now discussed all over the country, was found in Lynn, where John Charles Thompson, son of wealthy parents, was refused a license to marry Miss Violet Wade, a talented soprano singer who had come from Chicago for the ceremony.

Thompson's parents protested the issuance of the license on the ground that their son, who is thirty years old, is in poor health owing to an injury to his head received six months ago. He wears a metallic plate to replace a portion of his skull which was removed.

"How are you getting along, boss?" asked his master, interestedly.

"I gets along pretty," replied Laratus, who complained of his misfortune at length. "Master John, I has such bad luck, says he, 'that when I dies and is laid away in the tomb and the good Lord says to me, 'Laratus, come forth, I know I sh'ld to come back.'"

Boy Had Molested Things. The dear little office boy had been detected in a lie. It was not one of the ordinary pretensions of everyday world, and moreover, it was the crime of espionage, based on a confession in advertising to his original mendacious statement.

"Do you know, my lad," said a grizzled clerk, in a kindly fashion, "what becomes of young lads who trifle with the truth?"

"Ah," was the assured reply; "the boss often sends them out as travelers when they grow up."

His Coming Out. A fond Chicago mother is to give a coming-out party for her son. Of course, she has no means of knowing the youth, but she fancy he must be exactly that kind of son—a son who waits with bated anxiety a full description of his coming-out costume.

What will be done with the gentle youth after this severe social ordeal isn't stated, but it can be believed that he is to be rushed around to all sorts of society functions—and, of course, carefully guarded against the matrimonial designs of fortune-hunting females.

Happiness Postponed. An awkward predicament in which a sailor bridegroom and his bride were placed in St. Mary Major's church, Exeter, Devonshire, England, recently, caused the postponement of their wedding. The bands had been duly called at the church, but when the parties presented themselves at the altar the bridegroom, who had been recently paid off from his ship at Portsmouth, was unable to produce the necessary permission from his commander. The bride swooned, and eventually returned home, while the bridegroom left for Plymouth to get the required document.

# SHERWOOD BILL LOST

### SENATE REJECTS DOLLAR A DAY PENSION ACT—ADOPTS AGE AND SERVICE MEASURE.

### It is Estimated That if It Becomes Law It Will Add Twenty Millions To Roll—Requires Ninety Days' Service.

Washington.—The thrilling fight on the Sherwood dollar-a-day pension bill ended when the senate rejected that measure, which had passed the house, by a vote of 46 to 21.

In its place the senate general age and service bill, which will increase the pension roll by at least \$20,000,000 annually during the next five years, was enacted by a vote of 56 to 16.

The bill requires beneficiaries to have served 90 days and provides pensions ranging from \$15 to \$40 a month, instead of a 60-day minimum and \$15 to \$20 a month, as in the house measure.

The senate added provisions that would prohibit attorneys' fees and that would grant \$25 a month for minor soldiers disabled by service wounds or disease, the latter being estimated to add \$2,500,000 to the annual outlay under the bill.

### AMERICAN NEWSPAPER In Mexico City Suppressed by Madero—Ambassador Takes Action.

Mexico City.—The government suppressed the newspaper Herald, which is owned by an American corporation, under the management of Paul Hudson, alleging publication of false news detrimental to the Madero regime.

After fruitless efforts at defiance of the prohibition, Mr. Hudson ordered the matter to the American ambassador, Henry Lane Wilson, who approved of his action.

Gen. Gonzalez Espinosa, editor of the Herald, was fined \$5 on a charge of permitting untruthful matter of detriment to the government to be published.

The fact that a newspaper owned by an American corporation was singled out for suppression aroused much comment, the Mexican newspapers having attacked the administration viciously and published equally unfavorable news items.

### Carnegie Sues.

New York.—Andrew Carnegie, 82, sued the supreme court to recover \$2,000,000 and interest, loaned to the Carnegie Trust for December 23, 1909. Mr. Carnegie charges that he loaned the trust company 2,000 bonds of the United States Steel Corporation, worth \$1,000 each, with interest-bearing coupons. The Carnegie trust suspended early in 1911.

### Wright King's Divorce.

Boston.—Dr. Henry Francis Helms, dentist to the king of Siam, was granted a divorce from Irma Blanche Wright Helms, in the Suffolk superior court, on the ground of gross and confirmed habits of intoxication. A cross bill filed by Mrs. Helms charging non-support and cruel and abusive treatment was dismissed.

# NICE, BUT NOT IN HIS LINE

Exhibition on "Mantles" Most Pleasurable. Only Young Man Had Other Business to Attend To.

"I've come to see about the mantles, Miss."

"O, yes, I'm so glad you have come so soon, will you step into the drawing room?"

The young man stepped, he was pleased with his pleasant reception. After a while he came in and said: "How do?" So cozy to trouble him, but would he mind if they tried the mantles on? Her daughter was a trifle too full, and her own a trifle too long, she thought. Perhaps he would be good enough to see.

The young man said he would be only too delighted.

The two elegant mantles in the latest style which were lying across the back of the sofa were then donned, and the young man said he thought they looked charming. Yes, perhaps a little alteration was required, but if they would excuse him he would be glad if they would let him see on which his work and show him the gas-burners that were requiring fresh mantles.

"Why? Want he from Jiggles & Jiggles?"

O, no! He was the young man that attended to the mantles for the gas company—Robotham Suddas Herald.

Spent thirty. Uncle Ezra—Do you think the money young Eph Hoskins made down in New York will last him long? "Hein Eben—You bet it won't! He's going at an awful pace, I was down on the general store last night and young Eph was writing \$400 checks and lighting his cigars with them—Puck.

Some Old Story. She—How did they ever come to marry? He—Oh, it's the same old story. Started out to be good friends, you know, and later on changed their minds—Puck.

All Free. "Why does that old maid use so much paint on her face?" "She's making up for lost time."

Memories. "My dad, I was a newsboy once." "Aw, what chance you had to get on downhearted?"

# HANDS BURNED LIKE FIRE

"I can truthfully say Cuticura Remedies have cured me of forty long years of eczema. About four years ago I noticed some little pimples coming on my little fingers, and not giving it any attention, it soon became worse and spread all over my hands. If I would have them in water for a long time, they would burn like fire and large cracks would come. I could lay a pin in them. After using all the three I could think of, I went to three different doctors, but all did me no good. I was told to use Cuticura Remedies, I purchased one complete set, and after using them three days my hands were much better. Today my hands are entirely well, one set being all used." (Signed) Miss Mrs. Barker, R. F. D. 2, Spring Lake, Mich., Sept. 26, 1910.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book will be mailed free on application to "Cuticura," Dept. L, Boston.

Beverly Witty. "Henry," remarked Mrs. Henry Peck, "we are going to have some company this evening, and I do wish you would brighten up and look less like an honorary pallbearer. Say something humorous."

The company came, and with a few preliminary coughs and winks, which were intended to announce to his wife that the witless man was about to be perpetrated, Henry said timidly: "Mary."

"Yes, dear, what is it?" asked Mrs. Peck expectantly.

"Have you got all of your hair on this evening?"—Boston Globe.
